# General Practice Nursing Standards

In recent years there has been a range of new educational developments for nurses moving into General Practice.

In collaboration with QNI Scotland, we are therefore working to update the Standards for General Practice Nursing Education and Practice.

The  
Queen's  
Nursing  
Institute

THE QUEEN'S  
NURSING  
INSTITUTE  
SCOTLAND

The new standards are focused on Senior General Practice Nurses (SGPNs) and have been designed to reflect the requirements of this role working in new models of care and to reflect the rapid changes in General Practice and broader primary care. They are **NOT** designed to be for nurses new to General Practice as there are a range of courses designed to equip nurses new to General Practice with the skills they will need.
